The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wood in combination with Hughes. Wood provides a ventilation device with an inlet 5, a fan 20, two outlets 8 to the interior, 9 to the exterior and a damper which allows selecting the amount of air to be directed to either or both 8 and 9.

Hughes shows a similar ventilation device, which includes humidifier 10 beneath a fan 7. IT would have been obvious to provide Wood with a humidifier when the treated air is being directed to the interior in order to hrimidify that air.

The Swan patent is not available as a reference because of the provisions of 35 U.S.C. 119 (e) (1).
